

# Projector Instructions

For use in ISAT 336, 343, and 337

## General Instructions

**ALWAYS** ensure the projector is powered on and ready before you begin.

### Instructor's Workstation

Choose the **DVI-D input** on the projector remote.

*Exception:* ISAT 337 podium – use **Computer** button.

### Guest Laptop Connection

Use the VGA cable provided. Choose the **VGA input** from the projector remote.

*Exception:* ISAT 337 podium – use **Laptop** button.

## Crestron Air Media

**ALWAYS** ensure the projector is powered on and ready before you begin. Choose the **HDMI input** from the projector remote. *Exception:* ISAT 337 podium – use **Crestron** button.

Figure 1

### Student Workstation

Double-click the **Connect to Projector** icon (Figure 2) on the desktop.

You will be prompted for a **CODE** (Figure 3).

This code is found on the upper right corner of the Air Media box (Figure 1).

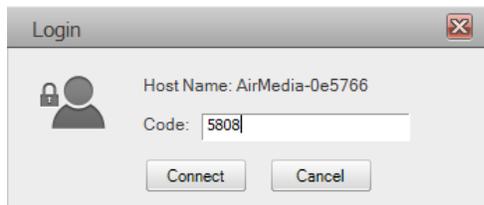

Figure 3

### Personal Wireless Device

Browse to the **IP address** listed at the top of the screen, (ex: <http://10.235.20.165>). You will need to download the app appropriate to your device the first time.

After the app is installed, you will be prompted (Figure 4) to connect using the **IP Address** and the **CODE** provided at the top of the Air Media box (Figure 1).
